- i have personally taken care of this truck. I'm An A&P certified mechanic so it wasn't Joe schmoe either. oil changed with full synthetic every 3-5 k miles. iv had it since 90k miles. at 100k, dropped the transmission for service and replaced torque converter fluid with OEM and trans with OEM fluids. also comes with stock wheel and tires. iv had no problems with this truck at all. drives straight. there is one engine code pulled up for a knock sensor. 45\$ part but just haven't gotten around to it. the tool box is squeaky but works.

### Trailer

- home made and gets the job done. can carry any bike lawn mower ect.
