Hello Entrepreneurs and Investors,

NSN innovative care is a not for profit licensed collective in Watsonville.

On March 24th, 2015, laws passed banning outdoor commercial grows in our county. For the 14 collectives in our county, they are allowed a maximum of a 10,000 sq. ft. canopy on a maximum of three separate APN's.

NSN lacks the funds to pay our employees the necessary hours to increase our current grow operation.

We need funding for material such as a light department green house, soil, large containers, etc NSN seeks silent partners with a desire to be compensated quickly with a variety of methods depending on our agreement.

We are seeking 10k minimum and 50k maximum.

We are willing to listen to any potential options in the crowd funding especially if you are able to get us all our needed funding alone.

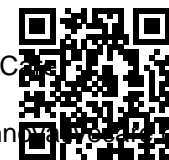

We are expecting several investors of varying amounts, so any amount you decide to invest with is greatly appreciated.

Please call or email for further information.

Regards
