

7 pc. Dining Room Set (225, USD)

Location **Alabama**
<https://www.genclassifieds.com/x-442079-z>

7 pc. dining room set includes a 2 piece hutch (upper and lower cabinets), a table and 4 chairs

The hutch has glass upper doors with a light inside. The two interior shelves have a strip of glass that are missing, as they have gotten misplaced during our moving process.
(**All you would do is get your measurements go to Lowes and they will cut this for you while you wait and should not cost no more than 8 or 10 dollars.**)

The table has 4 chairs two of which have arms and two that don't
one of the chairs has a spot approx 3 inch by 3 inch that needs a little stain put on the spot to match and then a clear coat

Other what is noted above, this is a very decent dining room set and this set is an older one, meaning it is actually made of real wood and is very sturdy, unlike the particle board crap that is used these
