Selling a set of wheels and tires universal 5 lug pattern came off an impala don't for my car but fit most cars with 5 lugs (not Bmw). Tires are 245/35/ZR20 of directional performance type and have about 75-80% tread remaining. Very minimal wear and tear no pitting or peeling on face of wheels. No major curb rash, tires are all good with no sidewall rips or tread punctures. All are true and straight is love if they fit but unfortunately they don't :(so I'm asking 850 obo for the set it's probably the cheapest online for the given condition of tires and wheels. Call or text
