#20 bags of volkmans avian super science hookbill seed. I have 2 bags for 20.00 each. these retail for \$46.00 each and you can usually only find them in premium retailers in bulk bins. usually runs about \$2.50 per lb, so this is a steal.. these are brand new, no bugs or moths, just delivered from the warehouse. I accidently hit the wrong code in when I was ordering and it is a huge hassle to return to the warehouse in Seattle. Volkman's is the best, cleanest seed and this mix is great for any med to large hook bill.

I also have 1 bag of volkmans premium value seed that is very similar, with bigger nuts in it that I opened and then realized it was wrong, no food used it is the full 20lbs. and that one is \$20.00 also
