

Need liscensed engineer to review and stamp deck plans (Norristown)

Location **Pennsylvania**
<https://www.genclassifieds.com/x-444707-z>

Hello i am a contractor i am trying to get permits for a very simple deck when i sumited the plans befor looking at them the inspected said they must my engineer stamped. I already drew the plans on the computer they are very thorough. So All i need is a engineer to look briefly that everything is in order and stamp them i can email the plans to anyone who is willing. Please let me know i also will email township codes fo follow. I will understand if the pIAn are missing something and need to be redrawn it will be more. Give me a fair price to just review snd stamp 2 67 6l4
