Two Nigerian dwarf goats (Wells River)

Location Vermont https://www.genclassifieds.com/x-445094-z

I have two Nigerian dwarf goats that need a new home. We don't have time to care for them and would love to see them with a nice family. They are about 1 year old brothers, both fixed. I will not get rid of them for meat, these are pet goats. Please call me if you have any interest in seeing them. Small rehoming
