

1963 International C1200 4x4 (3000 USD)

Location **Wyoming**
<https://www.genclassifieds.com/x-445196-z>

Rare International Harvester 3/4 ton 4wd pickup. BG241 straight 6 engine, 4 spd transmission. It runs and drives great, it has 4.72 gears which means 2200 rpm at 45 mph. Closed knuckle Dana HD44 front end with locking hubs. Trans is a Borg-Warner T-18, can't remember the model of the t-case, but it's a Borg-Warner jobby too. Since I've had it I've changed all the gear lube, new points, condenser, cap and rotor. It's had regular oil changes too. It only has two rust thru spots, driver's front fender and tailgate(see pics). I've been driving it for four years and I love it but I've got too many big projects right now. My price may seem high but N.A.D.A. low retail is \$4300, and there aren't many around anymore. Any questions feel free to call or text and thanks for.
