

Black and white cat (Columbia)

Location **South Carolina**
<https://www.genclassifieds.com/x-445529-z>

I'm needing to rehome our black and white female cat. She just turned a year and is small. She is up to date on all her shots and she is microchipped and spayed. She will come with all her medical records. She is super sweet and loves to snuggle in bed with you. She also loves to follow you around the house. She is litter trained and eats blue hair ball control hard food and can. The only reason I'm rehoming her is because she was a rescue. I can't keep her but she is a great cat and would make a wonderful cat for someone. She loves kids and other cats. She doesn't mind dogs but I don't really think she needs to go to a home with a large dog. I am asking a rehoming fee to help with some of her vaccines, spay, and.
