## **Older Aircraft Avionics**

Location **South Dakota** https://www.genclassifieds.com/x-445570-z

Having avionics problems with older avionics systems? Cost too much to repair and really can't afford a new system. What do you do now? Just E-mail me and we can talk about options. I have 30+ years on the bench and aircraft installation and work with sport aircraft problems. There is always a good option, we just have to think about it. My shop rate for estimate is only \$ 50. Sorry you have to pay shipping. My opinion on good older systems, KX170B/175B systems, RT 328T and RT 385, are the best. Also KY96/96A, KY97/97A, KX155/KX155A,
