PENTAX smc P-FA 31mm f/1.8 Limited
 Immaculate condition. Priced to sell.

Truly incredible lens, and am selling because I have two copies of it, this one being the newer/better of the two. OUTSTANDING sharpness and color-rendering from this lens - just do a search and you'll find the raving reviews and history of it. It works equally well on full-frame film or APS-C DSLR cameras. Excellent in low-light and a fantastic walk-around "normal" lens a tad on the wide side.

I am the original owner of this lens and it is near-flawless condition. Cleaned and serviced last summer by C.R.I.S. authorized Pentax facility in Arizona. Purchased new in November of 2012. Newer AIV version, it will come with original box, manual/receipts, caps and leather storage pouch and paperwork from CRIS.

\$950 reduced to \$800 - pick up in Greenwood area only.
