

seeking guitarist for open mic(s) (gulfport)

Location **Mississippi** https://www.genclassifieds.com/x-447679-z

I'm a young musician looking for a guitarist to practice with/accompany me to local open mic(s) around -town. I am willing to pay within fair ranges. My voice is typically centered toward a coffeehouse sound, and I'm just looking to establish myself as a musician more than just thinking about getting out there vs doing it. I'm not a powerhouse sound, and I do not have vocal training, but I do have heart and earnesty in my voice that has gotten a lot of positive reactions from the performances I have done. :) looking to start practicing asap! :) please be sane because i know karate and it would help to see some sort of musical background references as well before we meet, just for safety concerns.

preferably someone in 20-30's. please have your own transportation and I am strictly looking for a professional:)
