I've had her since she was a kitten.

She is roughly 3 years old. She is spayed, de-clawed, micro-chipped and up to date on all her shots with the last annual vet visit having just taken place on 05/05/2015.

She had her annual vet visit/vaccinations on 05/05/2015 . She also has a spot she is over grooming on her back, never to the point of any sores on her skin but it was noticeable that she had missing fur. The vet said it was nothing serious and could be seasonal allergies, a food allergy or a flea allergy. She has never been outside and I use flea prevention so I think it may be seasonal or food allergy. I switched from lams to Blue Buffalo and she appears to be doing much better.

What comes with her:
 A small cat tree with sleeping perch and hanging toy
 Litter Box with mat and Tidy Cats litter

Cat Carrier (it does have a crack along the top but perfectly functional).
 2 Water Bowls and 2 Food Placemats
 1 Catnip Food - 10oz bag
 2 Cat Toys

Please do not hesitate to contact me with any questions. I have to find a home for her due to my allergies
