

The Artful Gardens NEW Landscape Design Package 2D Solutions (Raleigh, NC)

Location **North Carolina**
<https://www.genclassifieds.com/x-448582-z>

If seeing your finished design in 3D is not necessary, or if you want a lower cost yet high quality plan, this 2D option is perfect!

With the 2D plan you will get the aerial view master plan and plant legend as shown below. We will also include dimensions to any hardscapes (decks, patios, pools, etc...)

Most of the plants we use come with care sheets. This will help you better understand the plants selected for your design. We will also be going over some of the plants during the consultation as well.

Please contact us at www.theartfulgardennc.com to set up your consultation!
