I have a small residential construction company and I'm looking for someone who can perform a multitude of tasks. Must be knowledgeable in rough carpentry & finish carpentry specifically as well as some items listed below. Quality craftsmanship only. Most work is in the Media, PA area. Must have a license and car/truck/van and simple tools. No drinking or drugs.

Looking for day rate guy or per project price guy (could turn to full time work if desired). Please only respond if you are knowledgeable. No sense in wasting each other's time. Thanks.
