10 month old catahoula mix female puppy.

She has had her first shots and has been dewormed. Super playful. I had her for a week and then I broke my leg. She has been getting her paws stuck in my crutches. I still have a month to 2 months left on crutches I. I feel bad because I just have to either leave her outside or keep her in her cage because I can't keep up with.

Does well with our other dogs and did well with our friends kid when she was younger. Comes with 3/4 of a 40 lb dog food. I've called her Dallie Mae but she really doesn't know her name.
