Hello everyone, please keep your eye out for a small black external hard drive. It is a Raven brand "Silverstone" model. It has a carbon fiber type design on one side and the raven logo,lights up blue when plugged into computer. It had the USB cable attached which has one black end and one red end and was last seen in one of the art classrooms at Clackamas Community College. This drive has priceless family photos and at least 2 years of school projects. It is a devastating loss so if you see it or if you found it just be cool and turn it in.NO Questions asked...I just need to get it back. See below for a picture of what it looks like. Again if you find it or if you are the one that picked it up...please turn it in to the ASG office at CCC or at the Art Office at CCC. Or reply to this link. Thank you and God!
