BREAKDOWN: Cindy, late-20s, moderately attractive, inflated sense of beauty and self-worth, bordering on narcissism, extremely distrustful of men, terrible relationship history, great career, lack of ethics bordering on sociopathy. She is having dinner with a "male pig" anti-feminist who called her names on social media after she had done the same.

This role is designed for an extremely talented, well-educated, well-informed, politically opinionated actress with strong favorable opinions about modern feminism, and who has deep knowledge of current feminist issues. Ideally, she will have directed or produced at least one short film or one-woman play, with excellent public-speaking skills. A college degree from an elite university is strongly preferred. Actress must be willing to become a political "lightning rod" and welcome the national attention and debate this film will spark. Our goal is to alter/influence the political landscape, and for all involved to bring their "A-Game," giving performances which will result in a world-class finished product.

We will consider non-union actresses whose talent and star-quality match that of those in SAG-AFTRA, and who are willing to adhere to all requirements of them with regard to their union status.

For consideration, please submit proper headshot, full portfolio, resume with full contact information (so you can be reached), and reels/demos. If we cannot reach you initially, we will wait for you to respond and part of the audition is to see how quickly you return.
