Panther chameleon babies 3-4 months old. Please read up on them, they do need more than most reptiles for care.

Males \$120

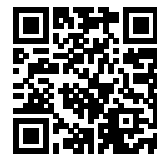

Females \$70

All Ambilobe cross with Nosy be (female is All Blue in color). They are all brown like the photo at this age. 2nd photo is the sire the Ambilobe

Please Text or email

These will be the last chameleons we will have. I don't have enough to sell at the next reptile expo.

They are now eating 1/2 or small store size crickets
