I have a number of small motors that I need tuned up and running. They were all running fine the last time they were used, but have been sitting for a number of years. Basically what I am looking for is someone who can come out to my place in caldwell (near Linden and Middleton rds) go through each of them, make sure they have good oil, fresh gas, filters, spark plugs, clean the carbs if necessary, etc. I am not that mechanically inclined, so I would also be looking for you to show me what routine maintenance I should do on each of them to make sure they last a long time, and also to show me how to operate them properly.

- 1) yamaha 2000 watt generator
- 2) coleman 2250 watt generator
- 3) Stihl Chainsaw
- 4) 15 hp Mercury boat motor
- 5) 2 hp johnson boat motor
- 6) yamaha tw200 dirt bike

Also, I have a utility trailer that needs some welding and brakes hooked up if you are interested.
