I have a little dog that I took in to find a home for. I am asking a nominal fee of 100 dollars to help find her a good home that can afford to properly care for her. It is slightly negotiable, a good home is much more important. Vet references or three personal references required...She gets along with other dogs, male and female, no matter the size, and cats, but prefers to have her personal bubble respected. She doesn't attack, just makes it clear she wants space (with animals only, loves to cuddle people). She loves people, and is submissive to everyone of all ages. She is crate trained and house broken, although I wouldn't leave her unattended for long periods of time outside her kennel. Would make a great pet for a family or an older couple, even with young children. Serious inquiries only. She is spayed and UTD on.
