

Carpet installer

Location **New Hampshire**
<https://www.genclassifieds.com/x-502547-z>

I'm looking for a price to install carpet in a basement. Roughly 900 square feet total. There is also a stairway going down with a platform that has one step down on each side. I will provide the carpet materials. I am just looking for a price for the labor/install. I'd like to have it done next week if.
