

Vintage American Torque Thrust D Wheels, 15X7, Pair (650 USD)

Location **New Jersey**
<https://www.genclassifieds.com/x-502576-z>

I have a pair of vintage American Torque Thrust D wheels from the sixties. They're 15X7 with a 5 on 4 3/4 bolt pattern. They are in un restored condition and need cleaning, polishing etc. They both have broken cap screws but otherwise solid wheels. \$650.00 for the pair. I'll try to take some pictures later today. These wheels were originally made for the 1965 Corvettes with disc brakes. This is what the D meant. These are not the modern torque thrust II wheels that are made in China. These are signed American Racing Torque Thrust D. Very hard to find and perfect for your mid year.
