A stray cat had kittens in my garage and abandoned them. I'm guessing they are 5-6 weeks old. They are eating soft and some hard food with mixed in kitten milk. I caught the mom and got her spayed but I can't keep the kittens. There are 3. They are somewhat nervous around people because they were raised outside but they're still young and I can hold them. Would make great barn cats or even pets if you can work with them and show them love and.
