I live in the most ideal climate for finding a used/classic car or truck that is in wonderful rust-free condition (Novato, California) and will be traveling to Fargo one-way to pick up a truck that I have in storage up there this spring sometime. If anyone is possibly interested in arranging to have a vehicle delivered to them in Fargo or upper Midwest in relatively close proximity, let me know and maybe we can work out a deal for little or no transport cost to you. I have an abundance of cross country driving experience and a flawless driving record, as well as numerous personal references in North Dakota, where I've lived and worked for over a decade (I own two properties, one in CA and the other in ND). You may text or call John anytime at your convenience.
