The Nevada State RETARDiCON Congressman Crescent Roll Hardy LOL!!!LOL!!!LOL!!! speaking to a Libertarian Party Expo in Las Vegas said "people with disabilities are a drain on society."

Crescent Roll Hardy explains....."I have three children," "One of them is summa cum laude and two were magnum cum laude. The other one, he didn't need an education. He works for Raytheon, smarter than all the rest. He works hard, he builds things that are genius. Some people have that ability." "But they all work hard. They are raising their own families," he continued. "They will not be a drain on society, the best they can. Hopefully they will never have some disability that causes them to have to utilize that."

To which Nevada Dems responded:

"If Crescent Roll Hardy wants to talk about 'drains on society,' he should point a finger at his buddy, deadbeat rancher Cliven Bundy, not disabled children," said Nevada State Democratic Party spokesperson Zach Hudson. "Hardy has compared employment non-discrimination laws to 'segregation,' agreed with Mitt Romney that 47% of the American people are 'freeloaders,' and now called children with disabilities 'drains on society.'"

Obviously.....JESUS would be proud of yet another outstanding example of RETARDiCON-passionHATE CONservaTURDism!!!
