Ok this big bully tough guy Kevin Austin austinconstruction hires me a very well thought of siding and metal brake man. I have references and pics to prove that. He hires me to recoil Anderson Windows (hail damage). \$50 to \$100 ;dollars ea. depending on it being a single, double or triple. He never mentioned size though. It doesnt take a tough guy to figure that one out. First couple weeks go great I can do no wrong! Then suddenly he starts acting different grouchy, mean, angry, all the time. Like he was trying to get me to quit on purpose. Well after a big job in highlands ranch 16 windows, he doesnt pay me complaining the seals drain angle was not correct 15 degrees. So that ment almost a complete redo all windows. Ok I like the job so we do it all over again. He still wont pay! cons me in to doing 5 more extra large windows and wont pay for those either.. He owes me \$1500 bucks wont pay and calls me the scammer,
