2005' F-150 4x4 supercrew cab automatic with fourth door. Great truck. Former member of corporate emergency service fleet and accumulated 90% of its mileage on the highway making multiple trips from Fayetteville to Little Rock mostly but several others in surrounding areas. It does have high miles 375,000 but motor has less than 75,000 since fully rebuilt and transmission less than 50,000. As a company vehicle it's maintenance schedule has always been like clockwork and professionally performed. There is a little minor body damage to the drivers side including a missing mirror and it needs a front bumper due to a falling tree branch during a storm that caused the vehicle to divert from its path missing the limb but grazing a tree bordering the road instead. Overall it's a very dependable truck and everything works. It has a less than 3 month old set of meaty mud tires that let you know it's coming down the road and can get you anywhere you want to go off the road. New front brakes 30 days back. Factory CD player. Both heat and ac work great. Clean title in hand. \$6250.00 OBO / trades
