We have pure bred tea cup chihuahua puppy. I call her Lucy. She is 7 weeks old and ready to go to forever home. I have mom, dad, and grandfather at home with me. She weighs almost a pound and will only get to be two pounds when grown. Mom weights 2 and dad weighs 2. Already rehomed two. Just one left. Only because I wasn't sure I wanted to part with her. But I have three and she deserves more time than I have. I will not rehome to just anyone believe that. You need to understand Lucy is a tiny puppy and will be a tiny dog. If you don't like an ankle biter she's not for you. Rehoming fee will be.
