Bubble soccer is a fun, physical, full-contact game in which individuals, or teams can run into, slam into, and push over without getting hurt, all the while playing a soccer game!

Large inflatable bubbles surround you with protective plastic and you are then able to push over, slam into, or run into your opponent during soccer, even if they don't have the ball!

We are currently hosting private parties, and leagues will be forming in September.

If you are looking for a fun way to party or build team exercises with your company that's out of the ordinary, then this is the activity for you!

We can book for birthdays, holidays, both small and large companies, and families. Bachelor and bachelorette parties are also welcome to reserve a game.

We allow ages 8 and up and our suits are one size fits all.

What if it rains? We are happy to schedule an indoor game, postpone, or reschedule for a brighter day outside so you can enjoy your party to the fullest experience.

Call us at to book a date today to have the best party in the!
