Location **Idaho**

I am looking for a female model/models to pose in an independent modeling project I am working on. For artistic effect nude modeling will be required.

The project will be a series of photos shot at different locations. It is more of a whimsical theme revolving around what the ordinary lives of such characters as werewolves, witches, vampires etc. might look like in an urban setting. For this project I plan to obscure the model's face with masks, hats and camera angles for a greater sense of the clandestine...a play on the idea that we don't know who among us might be our friendly neighborhood monster.

If you are interested please send your contact information along with a couple of photos of yourself, preferably at least one full body photo. I look forward to hearing from.
