I am looking for someone to strip the shingles off 1 side of my garage and replace the tarpaper and install architectural shingles. I have the tar paper and shingles, but no roofing nails. the garage is 1 story up and is 16 ft wide and roughly 12 ft up. it is sagging a bit over the garage door and I am open to someone installing the proper header inside to help straighten it up a bit. not looking to pay all outdoor or fund your kids college education, but I don't want "billy-bob and his band of drunk sidekicks" if you know what I mean. please have some references or proof of insurance. OR..if yo know someone and can recommend them, feel free to let me know...please feel free to come over in the evenings and give a written estimate and we can go from there, i will be paying cash after job is complete.. .PS....my apologies to the 2 gentlemen who came over a few months back , I lost my phone and contact...
