I'm trying to start a band that is influenced by 70's bands such as Lucifers Friend, Black Sabbath, UFO, Uriah Heep, Camel, Atomic Rooster, Epitaph, King Crimson, Deep Purple, Hendrix, Focus, Budgie etc...

I want a wall of sound so all instruments are welcome, think Frank Zappa and The Mothers of Invention but heavier! We play fast, We play slow but always have some kind of groove going.

Email me if you're interested, i'm not looking for pro's but people who are dedicated to improving and fucking shit up.

Prefer people in my age range so 15
