Beautiful Nashville Brides!

Are you tired of Pinning these incredible dresses and then when you finally see the price tags, your'e heart sinks? Its a terrible feeling when you have already fallen in love. Well...that is what I do for girls all over the country! They tell me the dress they want and I custom make it to their precise measurements and height.

Its much cheaper than spending \$5,000 on a dress and since I order all my materials, beading, lace and appliques from the same manufacturers that the designers use, they are nearly impossible to tell apart! Many years in the wedding gown business have left me with connections to these supplies and suppliers that your average "knock off" online stores just do not have. I have done 32 dresses this season alone from some of the highest pinned dresses today! My prices are \$1000-\$1700 depending on the amount of hand beading etc.

Don't overpay! Order from me today and remember! I gave FULL refunds to any customer that is unhappy with their purchase. No need to sweat it out or gamble with such an important part of your wedding day! Rest easy with a local who speaks English and understands the trends today!

Most importantly... have a happy happy wedding day!

You only get one... :)
