

Songwriters and Bands WANTED

Location **Utah**
<https://www.genclassifieds.com/x-507895-z>

Hi,

My name is Austin Atteberry and I run an organization called The Sing Me a Story Foundation. We are looking for songwriters to help kids in need by writing songs to raise money for the organizations they're a part of!

The premise behind our program is that we give kids in children's hospitals, children's homes and hospice organizations around the world the chance to write and illustrate stories about anything they want. We then distribute those stories to songwriters of any kind who turn them into songs, record them and send them back to the kids and families via our program and create a campaign to raise money around the song. It all takes place online and you can see what we're up to at www.SingMeAStory.org.

We are always looking for new volunteer songwriters of any kind to participate and help bring a voice to the kids we serve while also raising money for the organizations they're a part of as well as our own. If you're interested in signing up as a songwriter, you can go to our website and click the "Join Us" tab.

Thank you so much for your time!
