I've been driving for Uber for the past couple of months while I'm starting my own business. It's been a great way to make extra money while being able to make your own schedule and be your own boss. Depending on when you drive you can make between \$15 and \$60 an hour. On average it is usually about \$25 an hour.

Use my promo code and we both get a big bonus after you get your first 20 drives in- that usually takes about one full day of driving to get 20 rides in. The bonus will vary but it is usually between \$200 and \$1000.
