Lightly used Alpha 1 Gen II sterndrive from Mercury MerCruiser Ratio: 2.0, just had it checked out by local marina and is ready to go. Reportedly was purchased new from Mercruiser and saw very little use, aside from minor skeg damage is virtually like new. I acquired this as part of a package deal with a boat I purchased last year, I don't have any more history on it except the drive serial number reads "SW 52876". Asking \$1495. as.
