6/10/2015 Another child killed in Dorchester. Profiling must be legalized and mothers should stop hollering racial profiling as it appears that is where most of the guns are. It is up to the mother's to decide before they lose their kids. Stop the foolishness about racial profiling and allow the cops to check anyone for guns. The life you save may be your child's. If the young criminals knew they could get searched anytime they wouldn't be carrying the guns and that would probably save your child. Let's stop the hollering about race and start the protecting of our children. Only we mother's can do it.....GIVE A LITTLE and LIVE A LITTLE .
