I need someone to install LaView 960 H home security cameras. There are 4 WIRED cameras, but I need the wires to be buried/hidden best as possible. 3 cameras would be indoors, 1 might go outdoors. Cameras would be on 1st floor; DVR could be on 1st or 2nd floor, depending on ease of installation, and ability to hide the wiring.

Previous experience with camera installation would be best; also looking for advice how/where to best place.
