***UPDATE: You would need to provide tools/mower/whatever is needed to clean up this mess of weeds. Also, you would need to haul it away.
SO SORRY, I should have made that clear in my original post.

We are in need of some help to remove weeds and cheatgrass from our business area. It is an area around 12 feet wide by 50 or 60 feet long, full of weeds, cheatgrass and some thistles and wild roses. May not have enough room to get a commercial lawnmower in there.
Please email an estimate and we'll hire someone by the weekend (6/20/15).
