Looking for someone that can travel to me give me some ideas what to do at home and how to use the apartment gym properly. I just need to loose/tone up a little belly and don't know how to do it the right way. Apartment work out/yoga inside done usually in the nude the apartment gym has clothes. There's a hot tub as well to relax in and pool to swim in. If you can help send a picture and times your available to meet up so I can start working on.
