For that special occasion, for that professional project, don't settle for second best.

With decades of experience behind the lens and a gear bag full of high-end equipment, I do more than take photographs. . . I bring a touch of magic into your life.

My photos never have that dark, muddy look that is so common here on Craigslist and here's why:

GEAR:
 Canon EOS 5D Mark III
 Strictly Canon L lenses
 White Lightning X series studio flashes

In addition to an in-studio shoot that will make you look like you're on the cover of a magazine, you have the option of taking it outside for the dreamiest natural light portraits you've ever seen. Doing both will result in a portfolio of images that exhibits truly breathtaking variance.

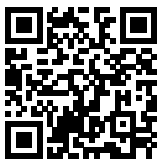

So give me a call. Write me an email. Let's discuss your project. You'll love the photos... and since my rates are very reasonable, you won't break the bank.

I've shot a wide range of clientele through Craigslist, and my list of satisfied customers keeps growing.
