Enjoy the clean detail of this oak art deco buffet. Interior has two drawers below shelf on right side. One is sectioned, both are dovetail construction. Left side has been reconfigured for other storage with two shelves. Note clean, vertical detail in channel carved bun type feet, floral carving on doors and back plate, and unique handles. Entertain in style with this bargain. 53" wide by 20" deep by 36" tall. Solidly made and probably 100 years old. Believe oak is quarter sawn.
