Hello,

I am looking for someone to take a couple loads of smaller sized stuff from my upstairs apartment. I had movers move all the heavy stuff this weekend but time ran out of time and was not happy with their services. I'll also be with you taking stuff in my mini suv. Nothing will need 2 people to move, it's just mostly boxes and misc like my bike and light bookshelf.

Like i said- the job is small, should take about an hour or less than 2 so just let me know the total you would charge and send me an email. I'm hoping to get it done in the next few days so i can be all the way out by the weekend.

thanks!
