Aspiring Model who is looking fir someone who knows or can at least try to paint a body (male ) and take some good pictures. I will pay you to paint me artist or not. I'm willing to pay for paint also so no worries on that end.

I dont have a good camera, so if you have one that will work that's great or even a phone with a nice camera.

This is for my portfolio and I like to try different stuff with art & modeling just very open.
