Looking for a tutor/teacher for the latest version of Adobe Premier Pro CC video editing software.

I just got a new job (in marketing) that will require a lot of video shooting and editing.

You MUST be looking to TEACH not to do the work!

I have some experience but not nearly enough.

\$35/hour and I would expect 1 - 2 hours a week for about 6 months.

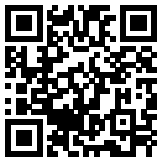

We will be working on an almost new iMac with enough power and storage.
Should have dual monitors in place soon.

References available for others that have worked 1:1 with me at my.
