HELLO DENVER, my name is Kristofer Knapp and I need a whole album of material filled up by the best local talent DENVER has. I have a whole catalogue of new EDM Hip Hop-pop and even some trap for the g's. SINCE your far, you must have access to a mic, I can still mix and master all but that is essential. CHECK OUT THE TRACKS at reverbnation, search Plane Crash Krissy. I have spent the last 3 months establishing contacts all over LA, partially stifling the music's production but now its time to get to work.

I'M NOT A SCAM LIKE THE REST OF THIS WEBSITE
