This is a beautiful 2500 square foot home in one of the best Kauai locations. Super clean Hawaiian home with views, fruit trees, and so many flowers. World class golf and beaches are close by and there is a large combined kitchen and living room creating a great room gathering place with attached lanai. This is not a vacation rental.

We are interested in a straight trade for a downtown property close to or in the French Quarter that would sleep at least 2 couples.

Available sometime next Spring maybe March or April 2016, dates.
