

# 1991 MK3 Toyota Supra Turbo Targa Auto Project Car 1989, 1990, 1992 (1200, USD)

Location **Louisiana**  
<https://www.genclassifieds.com/x-563468-z>

Up for sale is a true one owner fully loaded Turbo Supra with about 144,460mi. It has the rare Mahogany Pearl factory exterior and medium dark gray interior. The Targa roof is removable and can be stowed in the hatch like a convertible. The interior is in excellent condition as seen in the photos. All of the body panels are in great shape except for two. This leads us to why this is a project car. While driving, the engine bay caught on fire and damaged the hood and the nosepiece was slightly bent while putting the fire out. The engine bay sustained quite a bit of damage, so most everything will need to be replaced. There was absolutely NO fire or smoke damage to the interior of this car.

This sale includes an additional complete 7M-GTE engine (with CT-26 turbo), complete engine wire harness, replacement hood and drivers side engine bay wire harness. I also have almost every major replacement part necessary for reconstructing the engine bay which can be purchased as a separate package if you don't already have a donor Supra.

Feel free to text or call me at 504-five five four-3 zero 25 if you have any questions or want a specific picture taken.
