I am selling a brand new/never used *Happy Trails* pet stroller by Pet Gear.....the Pink Ice color. This is one of *the* best strollers out there for everyday use.

It is a 4 wheeled stroller, and the cargo area measures:
 24"L X 12"W X 23"T....

It says it is suitable for pets up to 30 pounds, but from experience, I find it is better suited to the 20 pound range. A 30 pound pet *will* fit, but it is sort of cramped. It is best for small breed dogs, puppies, kittens, & smaller animals.

First off, let me tell you that the picture makes it appear more tall & *boxy* than it looks in real life.

Features:

- 1.front and rear zippered mesh windows for loading.
2. locking brakes on rear wheels
3. large zipper pull which makes it easier to grasp

4. Double cup holder for pet parent

5. Large storage basket below for snacks, water bottle, etc.
 6. Thick padded handle makes it very comfortable to push
 7. Foldable - easy to fold down on top of car, with the safety of folding which has a latch on top.

This is *the* best dog/pet stroller I have used over the years. My favorite. I have recently bought their version in a no-zip, so don't need this any longer. sold my used one and I was hanging onto the as soon

of a spare, I like it this much. However, they don't really wear out! ;)

It is very smooth rolling and allows you to take your pet with you almost anywhere (as long as it's behaved, of course). I started using this when I couldn't leave my dog home if I left, but it was too hot or too cold to leave her in the car. Not to mention the rise of dog thefts...this allows you to safely keep your dog with you. It is excellent for senior pets or disabled pets who are no longer able to keep up with a rigorous walk, but still wants to get out (who likes to be "left behind"?! ;)

I can't say enough good about this brand/stroller. They are the handiest thing. Once you've used one, you'll wonder how you did without.

It is new/unused, and I have already done the assembling for you ;) (yes, in case you aren't aware, they come shipped in a box *unassembled*and there's always the risk it is damaged or has missing pieces, then you have to deal with sending it back, or getting the necessary parts.....mine is set up & ready to go. (What you see is what you get)

I am making a package of this, and including other small extras that are handy for the walk or travel, to make it a complete package:

Includes: Stroller and your choice of light green, or pink*baby* blanket to make the ride even more comfortable (see pics for choices...the brown one has sold, so only the pink or green one is available), your choice of dog bone waste pick-up dispenser with bags (see pics for choices, but the black one has sold, so I only have 2 pink styles to choose from), and your choice of either a pink travel water bottle *or* 2 collapsible water/food bowls....pink or blue....again, see pics.

Complete set for \$95.....if you only want/need the stroller, \$85 for the stroller only

NOTE: (you may have seen that Petco/PetSmart now carry pet strollers.....I can tell you from experience that mine costs less, and it is by far a better size & quality stroller.....I've seen them. I know.)
